## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Manni Li on March 30, 2007.

The Amendment filed March 12, 2007 of application has been amended as follows:

In claim 12, lines 1-3 of page 18, replace the section of "D represents a nitrogen atom-containing moiety;" with the following:

-- D represents O, S, Se, or a metal-coordinating moiety selected from the group consisting of an oxygen atom-containing moiety, a nitrogen atom-containing moiety, a sulfur atom-containing moiety, and a selenium atom-containing moiety; --

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The objection to the specification is withdrawn in view of applicants' amendments; and the rejection under 35 USC 112, 1<sup>st</sup> paragraph is also withdrawn since applicants have indicated support for the claims in the specification. The claims were previous rejected under 35 USC 102(b) over Ittel et al. (US 6,531,424). Ittel teaches (XVII) TiCl<sub>3</sub> complex in line 40 of col. 18 and lines 40-50 of col. 19 which is

similar to the first complex of the instant claim 23. However, as pointed out by the applicants on page 36 in the Remarks, in the instant claims, E group is bonded to the benzene ring through a single, while which in Ittel's (XVII) TiCl<sub>3</sub> complex, the nitrogen "N" (E group) is bonded to the benzene ring as a part of an aromatic ring. Therefore, Ittel's complex is different from the catalyst complexes of the instant claims and the instant claims are deemed to be novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
